03 8605 4848 or 0438 438 892 (International +61 3 8605 4848, +61 438 438 892)

Confidential – High level assessment of several Bio-sequestration Providers for an Eastern Australian gas company
Confidential – Due diligence of Carbon Conscious (Bio-sequestration service provider)
Confidential – Various projects assessing Bio-sequestration providers
Ernst & Young – Advisory services re bio-sequestration providers
INPEX – Review of CO2 Australia’s WA bio-sequestration plantings
CS Energy – Confidential report
Synergy – Confidential report
DAFF – Advisory panel member for the Asia-Pacific Forestry Skills and Capacity Building Program - SFM/REDD funding
Emitter – Assessment of select native title lands for afforestation purposes
Emitter – Assessment of select forestry organisations potential to supply afforestation services for carbon sequestration
Emitter – Assessment of Australia’s land suitable for carbon sequestration by state and rainfall
Emitter – Various bio-sequestration potential providers due diligence and land related projects
Confidential – Major Australian plantation biofuel resource assessment and market potential
Confidential US investment company – Independent assessment of carbon specific forestry investment in New Zealand.
VicForests – Carbon model development
SEQ Water – Carbon sequestration opportunities for landowners in SE Queensland.
Forestry Tasmania – Audit existing carbon balance work and co-develop Carbon Balance model covering native and planted forests, above and below ground carbon pools, product sales and product life cycles.
Macquarie Alternative Assets Management Ltd – Independent Forester’s Report. Macquarie Carbon Credit Investment 2007.
Australian Institute of Energy – Conference Paper “Forestry Sequestration of CO ₂ – An Industry Case Study”.
BioEnergy Australia – Independent Forester for their BioForest Renewable Sustainable Biofuel and Hardwood Timber Resource
Major NSW greenhouse gas emitter - Meeting the NSW Independent Pricing and Regulatory Tribunal (IPART) 70% Rule in respect of Carbon Sequestration on seventeen potential sites in Eastern Australia.
Major NSW greenhouse gas emitter - Carbon sequestration rates and costs for seventeen potential environmental planting sites in Eastern Australia. Detained analysis.
Australian Greenhouse Office - Verification of analysis by CSIRO of time-series satellite imagery; aim to identify plantations by species and age over time for national carbon accounting purposes.
Australian Greenhouse Office - National roll-out of ground verification of Landsat 7 imagery.
Australian Greenhouse Office - Technical advisor to Australia’s delegation to UNFCCC Workshop on harvested wood products, Lillehammer, Norway.

Australian Greenhouse Office (Joint project with Baker & McKenzie) - Role of sequestration in Australian forests.
Australian Greenhouse Office - Review of carbon modelling for harvested wood products.
National Association of Forest Industries - Opportunities for renewable energy production from wood waste – project under Renewable Energy Industry Development (REID 7) program.
Timbercorp - valuation of carbon sequestered by tree plantations.
ITC - valuation of carbon sequestered by tree plantations.
Special Liftout for Australian Forest Grower on use of wood as an energy source.
Forestry Tasmania - Review of eligibility of wood waste from harvesting of native forests for generation of renewable energy.
Forest Industry Engineering Association - Wood wastes under MRET – paper presented to Wood Wastes 2002 Conference.
Australian Greenhouse Office – Review of the potential for forest (carbon) degradation in Western Australia.
Australian Greenhouse Office – Greenhouse Challenge Independent Verification – Norske Skog Australia.
ERM - Feasibility study into the value of carbon sinks for Defence.
Confidential Client – Review of carbon accounting and modelling for greenhouse plantation project; review of implications of Australian Standard for Carbon Accounting and NGAC Guidelines for Carbon Sequestration.
Australian Greenhouse Office – Appointment as verifier to Greenhouse Challenge program.
