

Name : **Rodney William MEYNINK**

Year of Birth : 1955

Citizenship : Australian

Qualifications : BSc (For), Australian National University, Australia (1979)

Professional Affiliations : Member, Institute of Foresters of Australia

Fields of Expertise : Resource assessment, wood fibre supplies, valuation, due diligence, carbon sequestration, expert witness, remote sensing, yield regulation, global fibre resources, information systems, decision support systems, project management, team leadership, strategic planning, China's forest resources and development forestry.

Countries worked in : China, Lao PDR, Malaysia, Indonesia, Singapore, Philippines, Vietnam, Australia, New Zealand, Fiji, Solomon Islands, Vanuatu, United States, Argentina, Suriname, South Africa, The Congo, Finland, England, Sudan, Egypt, Myanmar, (Angola, Mozambique).

Other Languages : English - Mother tongue

Employment Record : Entity and position

2007 – present : MBAC Consulting Group Pty. Ltd.
Founding Director Principal

2001 – 2007 : MBAC Consulting Pty. Ltd.
Founding Director Principal

2000 – 2001 : Jaakko Pöyry Consulting (Asia-Pacific) Pty Ltd, Singapore
Vice President – Engagement Management

1999 – 2000 : Jaakko Pöyry Consulting (Asia-Pacific) Pty Ltd, Canberra
Vice President – Fibre Resources & Wood Products

1990 – 1998 : Margules Pöyry Pty Ltd, Canberra
Associate Director then **Director**

1987 – 1990 : Forfront Pty Ltd, Canberra
Managing Director

1985 – 1987 : Australian National University, Forestry Department, ACT
Senior Technical Officer and Post-Graduate Studies

1981 – 1985 : Hardboards Australia Ltd (CSR Timber Products Ltd), NSW
Forester

1979 – 1981 : Woods and Forests Department, South Australia
Forester

RELEVANT EXPERIENCE

2022 AUSTRALIA	Sustainable Timber Tasmania – Taper function for plantation-grown <i>E. nitens</i> in Tasmania.
2022 AUSTRALIA	SP Walters – Expert Report - Plantation Evaluation Mapping and Survey components.
2022 AUSTRALIA	Advisory – Land acquisition for carbon sequestration purposes.
2022 AUSTRALIA	Confidential – Due diligence of forest investment opportunity.
2021 AUSTRALIA	Sustainable Timber Tasmania – Assessment and utilization of STT’s <i>Eucalyptus nitens</i> plantation estate managed for solid wood production – Technical Report – Mapping, GIS and Inventory, taper function and growth model update.
2021 AUSTRALIA	Institute of Foresters of Australia – Forest Valuation Standards. Member of Working group updating the standards for forest valuations.
2021 AUSTRALIA	Confidential – Legal Expert in MIS case.
2021 AUSTRALIA	Confidential – Due diligence of 22,000 hectare softwood plantation estate in the Green Triangle region.
2021 AUSTRALIA	Confidential – Plantation potential of extensive private agricultural lands in select part of Western Australia and Victoria.
2020 AUSTRALIA	Confidential – Appraisal and valuation of advanced tree nursery in SE Queensland.
2020 AUSTRALIA	New Forests – High level due diligence of several eucalypt plantations in Western Australia.
2020 AUSTRALIA	Confidential law firm – Valuation of three Indian sandalwood plantations (WA).
2020 AUSTRALIA	Qld State Development – Wind turbines in planted forest – remediation report.
2020 AUSTRALIA	Minter Ellison – Fire expert report. Victorian native forest.
2020 AUSTRALIA	Inpex – 5 yearly review of carbon sequestration in mallee plantation.
2019 AUSTRALIA	Confidential – 5-yearly softwood sawlog fair market pricing arbitration.
2019 AUSTRALIA	New Forests – Due diligence of a number of assets in New Zealand and Australia.
2019 AUSTRALIA	Priest legal – Assessment of fire loss in privately owned native forest.
2019 AUSTRALIA	Confidential – High level assessment of agricultural land for afforestation
2019 AUSTRALIA	Confidential – Forest inventory of private native forest
2019 AUSTRALIA	Confidential – Due Diligence of intensive-agricultural land for afforestation
2018 AUSTRALIA	Confidential – Due Diligence of hardwood estate in Tasmania
2018 AUSTRALIA	Quinn Emanuel Urquhart & Sullivan Lawyers – Expert witness for forest fire loss (NSW)

2018 AUSTRALIA	Gippsland Water – Planning a Carbon Bio-sequestration Project – in conjunction with Verterra and Corporate Carbon
2018 AUSTRALIA	Victorian government (DELWP) – Independent Review of VicForests woodflow modelling
2018 AUSTRALIA	Sarah Davies Legal – Forestry expert witness; value of loss (stumpage) – (Tasmania)
2018 AUSTRALIA	Yeeda – Sandalwood plantation valuation
2018 AUSTRALIA	Confidential – Biomass study
2017 AUSTRALIA	Sustainable Timber Tasmania – Expert advice on native forest product pricing review - (Tasmania)
2017 AUSTRALIA	Shaun McElwaine Barrister – Forestry expert witness (Tasmania)
2017 AUSTRALIA	Confidential – High level due diligence of mid-sized eucalypt estate in southern Australia
2017 AUSTRALIA	Sustainable Timber Tasmania – Independent valuation advice
2017 AUSTRALIA	Confidential – Due diligence of eucalypt estate in Tasmania, Australia
2017 AUSTRALIA	New Forests – Valuation of Taswood Estate in Tasmania, Australia
2017 AUSTRALIA	VicForests – Independent review of long term resource availability
2017 AUSTRALIA	Confidential – Benchmarking port costs in Australia
2017 ASIA	Asian legal firm – Forestry Expert witness
2017 AUSTRALIA	Confidential – Eucalypt plantation mapping using remotely sensed data
2017 AUSTRALIA	Confidential – Native forest product pricing review – expert advice
2016 AUSTRALIA	Eucalypt industry group – Use of drones to locate koalas in eucalypt plantations
2016 AFRICA	Confidential – Biomass for energy generation pre-feasibility study
2016 AUSTRALIA	Confidential – Due diligence of two pine estates in NSW
2016 AUSTRALIA	DLA Piper – Expert Witness in forest owner/processor dispute
2016 AUSTRALIA	Confidential – Due diligence of pine estate in NSW
2016 AUSTRALIA	Cunningham Lindsey Australia – Insurance claim investigation and report
2016 AUSTRALIA	Tiwi Plantations Corporation – Acacia estate due diligence
2016 THE CONGO	The Commercial Court of The Congo – Expert Witness in legal dispute between concessionaires
2016 AUSTRALIA	New Forests – Valuation of Pinus estate in Tasmania
2015 AUSTRALIA	DLA Piper – Expert appraisal of reports

2015 AUSTRALIA	Confidential – Valuation of Pinus radiata estate in two eastern Australian states
2015 AUSTRALIA	Confidential – Divestment of unused land associated with a plantation
2015 AUSTRALIA	Confidential – Report on casuarina and paulownia industry
2015 AUSTRALIA	New Forests – Valuation of Pinus estate in Tasmania
2015 AUSTRALIA	INPEX – Site visit and report on bio-sequestration plantations
2014 AUSTRALIA	Confidential – Resource assessment and opinion on several eastern Australian plantations
2014 AUSTRALIA	Mills Oakley Lawyers – Expert report on plantation transaction
2014 AUSTRALIA	Canadian Pension Fund – Due diligence of Gunns c. 100,000 hardwood and softwood plantation estate in Tasmania
2013 MYANMAR	Confidential – Recruitment of foresters
2013 AUSTRALIA	Bell – Sandalwood forest valuation
2013 AUSTRALIA	Midway – Pine and eucalypt plantation valuation
2013 AUSTRALIA	Confidential – Discount rate advice
2012 AUSTRALIA	DLA Piper – Expert witness
2012 AUSTRALIA	Lander & Rogers – Fire assessment expert reports
2012 AUSTRALIA	Confidential – Assessment of 10 000 ha <i>Eucalyptus</i> estate
2012 AUSTRALIA	INPEX – Advisory services re carbon sequestration plantation in WA
2012 AUSTRALIA	AKD – Forest valuation advice
2012 AUSTRALIA	Midway – Annual valuation of hardwood and softwood plantation estate
2012 AUSTRALIA	Confidential – Manage The Carbon Store 2011 and 2012 verification reports
2012 AUSTRALIA	Confidential – Fire Insurance claim - Advisory
2012 AUSTRALIA	Confidential – Due diligence Forestry SA
2012 AUSTRALIA	Confidential – Due diligence of Port of Portland – wood products
2011 AUSTRALIA	Clarendon Lawyers – Viability assessment of Willmott Growers Group softwood plantations in NSW/VIC and provision of expert report
2011 AUSTRALIA	INPEX –Review bio-sequestration service provider Apr-Oct 2011 Report
2011 AUSTRALIA	Confidential – Feasibility study of mallee biomass project in NSW
2011 AUSTRALIA	Ernst & Young – Review of submission to Carbon Farming Initiative
2011 AUSTRALIA	Confidential – desk value-opinion of Elementree carbon mallee estate in Western Australia

2011 AUSTRALIA	Confidential – Economic needs analysis of irrigated hardwood plantation in southern Queensland
2011 AUSTRALIA	Confidential – Greenhouse gas strategic planning focus mallee growing for bio-sequestration
2011 AUSTRALIA	Clarendon Lawyers – Due diligence of (part) Willmott pine estate in NSW
2011 AUSTRALIA	Confidential – Benchmarking carbon plantation costs (land, establishment, maintenance, verification etc)
2011 AUSTRALIA	Minter Ellison (Lawyers) – Expert Witness for forestry related conflict resolution
2011 AUSTRALIA	Confidential – Assessment of several thousand ha of blue gum plantations using low altitude oblique aerial photography, ground measurements, condition assessment, stratification, foliar analysis and yield projections
2010 AUSTRALIA	Confidential – Land assessments in the Northern Territory
2010 AUSTRALIA	Confidential – Due diligence of Carbon Conscious
2010 AUSTRALIA	Department of Environment and Resource Management (Qld) – Cypress sawlog pricing review
2010 AUSTRALIA	Bluescope Steel (NZ) – Review of Australian Carbon Farming Activities
2010 AUSTRALIA	Confidential – Due diligence of Forest Enterprises Australia NSW estate
2010 AUSTRALIA	Confidential – Sale of Forest Plantations Queensland (Stage 1)
2010 AUSTRALIA	Confidential – High level assessment of several Bio-sequestration Providers for an Eastern Australian gas company
2010 AUSTRALIA	TumbaPine – Advisory services as part of sale process
2009 AUSTRALIA	Confidential – Due diligence of Carbon Conscious (Bio-sequestration service provider)
2009 NEW ZEALAND	Confidential – Due diligence of major New Zealand forest (Matariki) as part of successful sale process
2009 AUSTRALIA	Confidential – Various projects assessing Bio-sequestration providers
2009 AUSTRALIA	Ernst & Young – Advisory services re bio-sequestration providers
2009 AUSTRALIA	Confidential – Review of CO2 Australia’s WA plantings for INPEX
2009 AUSTRALIA	CS Energy – Confidential report
2009 AUSTRALIA	Synergy – Confidential report
2009 SUDAN	Citadel – Sudan Stage II of forest assessment project in Southern Sudan
2009 AUSTRALIA	PF Olsen – Valuation of Australian forest assets
2009 AUSTRALIA	Montana Timbers – Submission to Timber Industry Inquiry

2009 AUSTRALIA	Confidential – Advice on discount rates and log prices for MIS company
2009 AUSTRALIA	TumbaPine – Valuation of forest estate
2009 AUSTRALIA	Confidential – Due diligence of hardwood plantation forest estate
2009 INDONESIA	DAFF – Asia-Pacific Forestry Skill and Capacity Building Program – assessment of proposals requiring funding
2009 AUSTRALIA	Confidential – Assessment of select native title lands for afforestation purposes
2009 AUSTRALIA	Confidential – Assessment of public forestry organisations potential to supply afforestation services for carbon sequestration
2009 AUSTRALIA	Confidential – Carbon sequestration providers due diligence and land related projects
2009 AUSTRALIA	Midway – Valuation of forest assets
2009 AUSTRALIA	Confidential US firm - Due diligence of investment in Managed Investment Scheme secondary markets
2009 AUSTRALIA	Confidential – Assessment of Australia’s land suitable for carbon sequestration by state and rainfall
2009 VIETNAM	The Bamboo Factory – Recruitment of new CEO
2009 SUDAN	Confidential – Resource assessment using SPOT and LANDSAT imagery
2008 AUSTRALIA	VicForests – Marketing 600 000 m ³ of low grade logs
2008 AUSTRALIA	Confidential – Biomass potential from very large plantation estate
2008 AUSTRALIA	Confidential - Due diligence of four carbon sequestration providers
2008 AUSTRALIA	South East Fibre Exports (SEFE) – Private native forest remote sensing and inventory
2008 VIETNAM	AppleTree Asia – Business development project for The Bamboo Factory
2008 AUSTRALIA	CS Energy – Review of Greening Australia
2008 AUSTRALIA	Confidential – Review of Radicle
2008 AUSTRALIA	Department of Environment and Conservation (WA) - Forests and Climate Change
2008 AUSTRALIA	Midway - Valuation of Australian forest assets
2008 AUSTRALIA	Confidential - Valuation of carbon assets
2008 AUSTRALIA	Weyerhaeuser Caboolture (now Carter Holt Harvey) – General Rate Review and forward operating environment
2008 AUSTRALIA	Confidential – Softwood afforestation opportunities in eastern Australia.
2008 AUSTRALIA	VicForests – Carbon model development.
2008 AUSTRALIA	Timbercorp – Carbon and hardwood plantations presentation and discussion paper.

2008 AUSTRALIA	Timbercorp – Review of plantation models and drought impacts assessment on Blue gum plantations.
2008 AFRICA	BP – Biomass Scoping Study in Mozambique, Angola and The Congo.
2008 NEW ZEALAND	Confidential – Due diligence of Carter Holt Harvey softwood sawmilling, panels and distribution operations in New Zealand.
2008 AUSTRALIA	Confidential – Plantation model for due diligence process.
2007 AUSTRALIA	Confidential – Softwood plantation economic analysis and stumpage assessments as part of wood supply agreement and stumpage review process.
2007 AUSTRALIA	SEQ Water – Carbon sequestration opportunities for landowners in SE Queensland.
2007 AUSTRALIA	Confidential – Afforestation potential in eastern Australia.
2007 AUSTRALIA	Confidential – Softwood markets in eastern Australia.
2007 AUSTRALIA	Queensland Commodity Exports – Hardwood plantation assessment.
2007 AUSTRALIA	Gerard Industries – SGARA softwood plantation valuation.
2007 AUSTRALIA	Forestry Tasmania - Audit existing carbon balance work and co-develop Carbon Balance model covering native and planted forests, above and below ground carbon pools, product sales and product life cycles.
2007 AUSTRALIA	Macquarie Alternative Assets Management Ltd – Independent Forester’s Report for Macquarie Carbon Credit Investment 2007.
2007 AUSTRALIA	BioForest Ltd – Independent Forester for their dual Silky oak and she-oak Project 2007.
2007 AUSTRALIA	VicForests – Inventory planning advice for thinned native forests in Victoria.
2007 VIETNAM	Scanagri (Finland) – In-country preparation of a World Bank Proposal to undertake a 5 year USD80 million Technical Assistance project focusing on Vietnam’s smallholder plantation forestry and land allocation and management systems in the central provinces.
2006 CHINA (HK)	Confidential – due diligence of forest acquisition. Modelling and advisory services.
2006 AUSTRALIA	Confidential major softwood sawmiller – Return to stumpage assessments for two sawmills in Australia.
2006 AUSTRALIA	Timbercorp – Review of forest and market sections of their 2007-08 PDS.
2006 AUSTRALIA	Bennetts – Value assessment of small eucalypt and pine plantation in northern NSW.
2006 AUSTRALIA	State Development – Western Hardwoods Region MARVL inventory review with modified log specification.
2006 AUSTRALIA	State Development – Sub-regional rolling inventory process for the Western Hardwoods private timber supply. Project scoping report.

- 2006 AUSTRALIA Australian Institute of Energy – Carbon sequestration – an industry case study. Paper presentation at the AIE National Conference. Melbourne. November 2006.
- 2006 AUSTRALIA BioForest – Independent assessment of the wood product and biofuel yields that can be expected from BioForest’s proposed Silky oak (*Grevillea robusta*) and She-oak (*Casuarina cunninghamiana*) plantation in northern NSW.
- 2006 AUSTRALIA Midway – Annual re-valuation of Midway’s softwood and hardwood plantation estate, in conjunction with Chandler Fraser Keating (NZ).
- 2006 AUSTRALIA Bluescope Steel - Meeting the NSW Independent Pricing and Regulatory Tribunal (IPART) 70% Rule in respect of Carbon Sequestration on seventeen potential sites in Eastern Australia.
- 2006 AUSTRALIA DSE - Socioeconomic impact of the timber industry on communities within East Gippsland Forest Management Area, Victoria.
- 2006 AUSTRALIA Bluescope Steel - Carbon sequestration rates and costs for seventeen potential environmental planting sites in Eastern Australia. Detained analysis.
- 2006 AUSTRALIA Murray River Forests – Valuation of a 5 000 ha softwood plantation estate.
- 2006 AUSTRALIA Timbercorp – 2006 update of 2005 Yield Report and 2006 Independent Forester’s Report.
- 2006 AUSTRALIA DSE - Feasibility of plantations substituting for timber currently harvested from Melbourne’s water catchments.
- 2006 AUSTRALIA DPI-Forestry – General Value Review of Cypress cut, snig, load and haulage operations in Queensland.
- 2006 AUSTRALIA Confidential – Forest valuation of 6 000 ha softwood estate.
- 2005 AUSTRALIA Timbercorp – Independent Foresters report and a detailed review of eucalypt plantation yield.
- 2005 AUSTRALIA Confidential – Expert report relating to woodchip loading infrastructure.
- 2005 AUSTRALIA Australian Greenhouse Office. Verification of CSIRO’s satellite time-series analysis for national carbon accounting.
- 2005 AUSTRALIA VicForests – Develop a methodology to provide confidence levels for various options of resource availability, covering statistical modelling and analysis. Develop Woodstock model and provide advice on VicForests future forest inventory processes.
- 2005 AUSTRALIA Queensland Commodity Exports – Hardwood plantation estate SGARA valuation.
- 2005 AUSTRALIA Australian Greenhouse Office – Collection of several hundred ground control points in Australian east coast plantations for linking to satellite imagery.
- 2005 AUSTRALIA Timber Queensland - Socio-economic study of the Queensland softwood timber processing industry.

2005 AUSTRALIA	Plantations Pulpwood Export (PPE) – Cost competitiveness of hardwood fibre suppliers to Japan, focusing on cost of fibre in pulp and paper.
2005 AUSTRALIA	Confidential - Co-mediation role in plantation forestry dispute.
2004 AUSTRALIA	Timbercorp - Exchange rates and Australia’s hardwood fibre cost competitiveness in the Japanese market.
2004 AUSTRALIA	Timbercorp – Independent Foresters report.
2004 AUSTRALIA	Global Forest Partners – Due diligence and valuation of private plantation estates in Oberon and Tumut regions of NSW, using SPOT high resolution imagery and extensive on-ground MARVL inventory.
2004 AUSTRALIA	Victorian Private Forestry – An analysis of regulation of Victorian Private Forestry.
2004 AUSTRALIA	Gippsland Private Forestry – A socio-economic assessment of the timber industry in Gippsland, Victoria.
2004 AUSTRALIA	Timbercorp – Review of yield in hardwood plantations.
2004 AUSTRALIA	Confidential – Assessment of State Forest NSW plantations.
2004 AUSTRALIA	Hancock Group Investments – Assessment of Timber Reserve lease in Queensland.
2004 AUSTRALIA	Confidential – Rapid resource assessment and mapping of hardwood plantations in the Green Triangle region of SE South Australia and SW Victoria using Landsat 7 imagery.
2003 AUSTRALIA	Future Corporation – Market potential for wood products from Lockhart River (Nth Qld) and Erromango (Vanuatu).
2003 AUSTRALIA	Future Corporation – Appraisal of Lockhart River (Nth Qld) forestry potential.
2003 AUSTRALIA	Queensland Timber Board (QTB) - The technical and practical feasibility of processing small diameter hardwood sawlogs through a national and international review of companies that are currently processing a similar resource.
2003 INDONESIA	Indonesian Pulp and Paper - Landuse assessment of 7.1 million hectares of land using LANDSAT 7 and SPOT 5 satellite imagery as well as ground assessment. Collection of approximately 1 000 ground control points in several landuse types (plantation, oilpalm, rubber, grasslands etc) using GPS and local forestry crews. Mapping from raster imagery to vector GIS and technology transfer. Lead company with Geoimage (Brisbane).
2003 AUSTRALIA	Weyerhaeuser Australia - Independent advice on saw log haulage costs, stumpage costs, sawn lumber grade recoveries, softwood sawntimber market changes 1995 to the present and interstate sawntimber road freight rates. Required for 5 yearly royalty review submission
2003 AUSTRALIA	Queensland Timber Board (QTB) - Inventory of approximately 4 million hectares of private native forest in the Western Hardwoods Region of Queensland to assess area by forest type as well as a range of wood and non wood values.

- 2003 CHINA Wood Resources International. Landed wood cost in China. Quarterly reporting, with commentary on supply and demand for softwood and hardwood fibre by the pulp and paper industry.
- 2003 AUSTRALIA Timbercorp. International Hardwood Fibre Markets, focusing on Japan, China and Australia's cost competitiveness relative to South Africa, Chile and Brazil.
- 2003 AUSTRALIA Forest Products Commission (WA). Global best practices in log inventory (woodflow planning) systems, covering North America, South America (Chile), New Zealand, Australia, South Africa, United Kingdom and Scandinavia. Contact with twenty eight global organisations.
- 2002 AUSTRALIA Department of Agriculture Fisheries and Forestry Australia (AFFA) and Queensland Timber Board (QTB) - Inventory of approximately 1.5 million hectares of private native forest in south east Queensland. Lead company, engaging Geolmage, the Queensland Herbarium, MapInfo, QASCO, AAM Surveys, Forest Data and Australian Farm Forestry to assess area by forest type as well as a range of wood and non wood values.
- 2002 AUSTRALIA Monaro Logging – update logging contract program written by me in the 1980s (still operating after 15 years).
- 2002 AUSTRALIA Timbercorp – update the market section of their 2002 Prospectus.
- 2002 AUSTRALIA Futuris Corporation and Integrated Tree Cropping (ITC) – Global, Asia Pacific and Australian forest and forest products industries overview – preparation of Board White Paper.
- 2002 ASIA Jaakko Pöyry Consulting – Analysis of Asia Pacific fibre resources, with a focus on China. Economics, wood products supply and demand, non wood products supply and demand, wood demand and supply, resources and industry location, strategic issues, manufacturing production. By fibre basin wood demand, forest ownership and growth rates, wood demand by type, delivered wood cost and manufacturing wood consumption by major processor.
- 2002 AUSTRALIA ITC – Advice on exchange rates and forest product prices.
- 2002 AUSTRALIA Founded MBAC Consulting Pty Ltd
- 2001 AUSTRALIA Team Leader – Due Diligence of Australian Plantation Timber (APT) Eucalyptus and land resource in SW Western Australia and the Green Triangle Region of SW Victoria and SE South Australia – Australian merchant bank and Jaakko Pöyry Consulting – December 2001.
- 2001 VIETNAM Team Leader, Forest and Forest Industry Economist - Study on the Development Potential of Vietnamese Wood Growing Sector, focusing on the Central Coastal Provinces of Quang Binh, Quang Tri, Thua Thien Hue, Da nang , Quang Nam, Quang Ngai and Binh Dinh. Plantation Development, smallholder issues, industries and markets – World Bank and Jaakko Pöyry Development – October 2001.
- 2001 CHINA China's Forest Industries – Opportunities and Challenges – Forest Resources. Jaakko Pöyry Multi-client report, Joint Principal Author and Project Director. – Published August, 2001.

2001 CHINA	Team Leader – Valuation of Asia Pulp and Paper’s Chinese plantation estate, involving on-site assessment on Hainan Island and in Guangdong for APP.
2001 AUSTRALIA	Confidential – Project Director for the Development of an Australian Timberland Fund – structure, acquisition opportunities, macro economic environment, investor appetite.
2001 AUSTRALIA	Confidential – Project Director - Strategic planning for Australian afforestation company.
2001 CHINA	Confidential – Landed wood cost from eucalypt plantations in Southern China
2000 AUSTRALIA	Confidential – Valuation of Eucalypt pulpwood log licence
2000 INDONESIA	Riau Andalan Pulp and Paper – Strategic advice for long term woodflow harvesting and transport associated with mill expansion in Indonesia
2000 AUSTRALIA	NSW Government – Project Director - Strategic Plan to develop user-pays system for forest growers to use NSW transport infrastructure
2000 CHINA	Hutai (Peoples Daily) – Strategic Plan for expansion of pulp and paper facilities in Shandong Province, China – Project Manager
2000 SURINAME	Turn Best Industries – Resource assessment of select Suriname natural forest concessions and identification of sustainable utilisation options – Project Director
2000 AUSTRALIA	Brown and Dureau – Wood supply in South East Australia.
2000 AUSTRALIA	Industrial Bank of Japan, Australia – Regional afforestation options concentrating on Carbon sequestration.
2000 AUSTRALIA	Carter Holt Harvey – Plantation resource and softwood industry review in Australia.
1999 SOUTH AFRICA, ARGENTINA, EUROPE	Integrated Tree Cropping (ITC) – Solid wood processing and marketing options from fast grown eucalypt plantations in South Africa, South America and Australia.
1999 AUSTRALIA	Hancock Victorian Plantations (HVP) - Market Valuation of HVP’s Victorian forest assets, incorporating AASB1037 (SGARA) accounting standards.
1999 AUSTRALIA	North Forest Products - Project Director of due diligence of North Forest Products’ NE Tasmanian plantation sale, in conjunction with Macquarie Bank.
1999 INDONESIA	North American confidential client - Strategic resource advice assessing opportunities for a major acquisition in Indonesia.
1999 AUSTRALIA	Lensworth (Queensland) - Strategic Advisor for development options for privately owned softwood plantation in SE Queensland.
1999 AUSTRALIA	Integrated Tree Cropping (ITC) - Author of Independent Foresters’ Report for three blue gum prospectuses in Western Australia and the Green Triangle Region of South Australia/Victoria.

- 1999 AUSTRALIA Hancock Victorian Plantations (HVP) - Assisted in development of FOLPI estate model.
- 1999 INDONESIA Riau Andalan Pulp & Paper (RAPP) APRIL Group - Due Diligence and Information Memorandum based on woodflow to the RAPP Kerinci pulp and paper mill in Sumatra, Indonesia.
- 1998 AUSTRALIA Hancock Natural Resources Group (USA) - Project Director for valuation of CSR Timber Plantation in South Australia and Victoria.
- 1998 AUSTRALIA Canterwood - Analysis of shortwood and longwood harvesting systems for Hyne & Sons (Canterwood) softwood woodchip export operation at Maryborough in Queensland.
- 1998 AUSTRALIA Hancock Natural Resources Group - Project Director for due diligence and strategic advice on HNRG's bid for the 116,000 net hectare plantation estate in Victoria.
- 1998 INDONESIA Confidential client - Project Director for strategic study of Asia Pulp and Paper (APP) paper operations in Indonesia.
- 1998 FIJI Fiji Forest Industries - Preparation of Concession Renewal Proposal and development of a coupe level GIS incorporating harvesting history, ownership, forest type (from satellite imagery) and proximity to infrastructure. Documents and maps at 1:150,000 and 1:50,000, the latter using GPS road data.
- 1998 AUSTRALIA Gippsland Farm Plantation - Project Director to develop strategic issues for Gippsland Farm Plantations, encouraging farm forestry in the Gippsland Region of Victoria.
- 1998 AUSTRALIA Forestry Tasmania, Environment Australia and Commonwealth DPIE - Review of Native Forest Pricing and Allocation Policy for Forestry Tasmania, in conjunction with Access Economics.
- 1998 AUSTRALIA Plantations North East - Regional Profile and stakeholder database for the area between Melbourne and the Murray River (south to north) and Shepparton and the Dividing Range (west to east) as part of a package to encourage plantation investment in the region.
- 1997 MALAYSIA Borneo Pulp and Paper (BPP) - Preparation of report on wood supply and cost of presentation to financial institutions. Project covered all land and volume issues such as customary land, vegetation and terrain classifications and landed wood cost calculations for native and plantation resource for a major pulp mill development project in Sarawak.
- 1997 AUSTRALIA Beecham Wright and Victree Forests - Valuation of Public and Company log access rights as part of forest estate and related wood licences valuations.
- 1997 AUSTRALIA Westralian Forest Industries (WESFI) - Development of softwood pulpwood, sawlog and sawmill residue price indices for Australia and New Zealand domestic and export sales.
- 1997 AUSTRALIA Confidential Corporation - Project Director of due diligence of major corporate softwood plantation sale in Australia, acting for the potential buyer.

- 1997 AUSTRALIA NSW Forestry Structural Adjustment Unit - Assessment of supplementation options, following volume reductions on the NSW North Coast.
- 1997 SURINAME Confidential Corporation - Prefeasibility study of industrial opportunities in Suriname South America.
- 1997 AUSTRALIA Confidential Corporation - Assessment of Asian helicopter logging company as part of a due diligence prior to acquisition.
- 1996 AUSTRALIA Confidential Corporation - Forestry Adviser to acquisition team assessing acquisition opportunities in Oceania.
- 1996 AUSTRALIA Confidential Company - Valuation of a number of crown softwood sawlog log access rights and a plantation estate, as a prelude to sale of the company by way of public float.
- 1996 AUSTRALIA State Forests of NSW - Investor participation mechanisms and structures for investment into hardwood plantation in NSW. Development of innovative financial and operational mechanisms involving existing fibre supply, infrastructure, industrial development and financial structures.
- 1996 AUSTRALIA Glenn Innes Regional Development Board - Project Manager for a 3 person team to identify regional opportunities for the hardwood and softwood forests and forest industry in the face of increasing mechanisms involving existing fibre supply, infrastructure, industrial development and financial structures.
- 1996 CHINA Food and Agricultural Organisation (FAO) - Paper presentation to Forestry Policies and Institutions in a Market Economy Asia Region Project covering global wood supply, demand and value, with insights into centrally planned, mixed and free markets. Attendees from Myanmar, China, Mongolia and Vietnam . Presentation in Kunming China.
- 1996 LAO PDR Transfield and Electricité de France - Forestry works associated with Nam Theun II Dam Feasibility Study. Demarcation of high water level on the ground, yield assessments and wood supply/demand assessments.
- 1995 AUSTRALIA Australian Corporate - Wood intake optimisation model, looking at fibre intake at two sites and the delivery, cost and quality features of supply.
- 1995 USA North American Corporate - Resource, business and manufacturing white papers on several potential investment arenas, covering forest attributes such as land and forest areas, distribution, ownership, species, age class, productivity, afforestation and reforestation rates, volumes and commitments, growing costs and wood costs.
- 1995 AUSTRALIA Port Kembla Port Authority - Background paper on wood chip export contenders for Port Kembla. Assessment of their fibre sources and business structures.
- 1995 AUSTRALIA Austrade - Plantation Benchmarking Study. Comparing Australia and 12 other countries in Asia, South America, North America and Oceania in terms of key plantation investment and resource, business and manufacturing attributes.
- 1995 AUSTRALIA Australian Corporate - Private plantation areas in NSW and Victoria by age class and species.

- 1995 AUSTRALIA Australian Corporate - Due Diligence of the Smorgon plantations prior to sale. Full MARVL inventory, with taper function development and digital mapping of 6,000 ha P. radiata estate in Victoria.
- 1995 CHINA CSR - Assessment of circa 100,000 hectares of Pinus plantations in Hunan using SPOT Image 1:50,000 Multi-spectral and Panchromatic satellite images and Global Positioning System (GPS). Project involved data capture; image analysis using ER Mapper; polygonisation (vectors) of pixel (raster) data and GIS development using ARCVIEW/2.
- 1995 AUSTRALIA Midway Wood Products - Assessment of forest residues in East Gippsland and Tambo Forest Management Areas (FMAs) prior to calls for Expressions of Interest in wood purchase. Project involved data compilation from about 300,000 ha using GIS; on-ground assessment of select coupes using 3P sampling and volumes estimation by species, wood size and distance to mill.
- 1995 AUSTRALIA Dr Shepherd Group - Assessment of 25,000 ha of privately owned Pinus radiata plantations in southeastern Australia and development of a GIS to attract wood buying/forest buying interests and for valuation purposes.
- 1995 VANUATU Australian International Development Assistance Bureau (AIDAB) - Inventory and computer (GIS) systems specialist on Vanuatu Sustainable Yield Project in conjunction with Hassall and Partners and ANUTECH. 5 year project commencing 1995.
- 1995 AUSTRALIA Hancock Bros Ltd - Valuation of four log access rights.
- 1995 AUSTRALIA Australian Newsprint Mills Ltd - Valuation of ANM Forests forest estate for internal reporting.
- 1994 USA Confidential Company - International expansion strategy, looking at global wood basket opportunities in North America, South America, Europe and Oceania, providing comparative resource, business and manufacturing environment information.
- 1994 AUSTRALIA Australian Newsprint Mills Ltd - Development of a Recycled Paper Stock Inventory Geographic Information system to monitor and plan fibre intake activities. Ongoing development.
- 1994 USA Confidential Company - Resource and wood supply options for their USA operations, looking at potential markets and landed wood costs and forest ownership options in conjunction with Jaakko Pöyry Consulting Inc., USA.
- 1994 AUSTRALIA Australian Newsprint Mills Ltd, Tasmania - Inventory of Forestry Commission of Tasmania's West Coast softwood plantations as part of a due diligence prior to ANM's successful tender for the resource.
- 1994 AUSTRALIA Australian Newsprint Mills Ltd, Albury - Inventory design, planning, processing and reporting for ANM Forests 8,000 ha Pinus radiata estate in NSW and Victoria, using MapInfo and MARVL systems.
- 1994 PAPUA NEW GUINEA Turama Forest Industries - Development of a Geographic Information System to assist in combining inventory data with remotely sensed (LANDSAT) data for the preparation of a feasibility study for ongoing resource utilisation.

- 1994 USA American Forest and Paper Association - Development of an international database and Geographic Information System using MapInfo. The database contains country specific solid wood products production, imports and exports in US dollars and cubic metres for all years from 1982 to the present. Products include sawn timber, plywood, particleboard, fibreboard, veneer and logs with softwood and hardwood separations. Data can be viewed and aggregated at the regional (ie North America, South America), sub-regional (Canada, USA, Central America and Latin America) or country (USA, Mexico, Brazil) levels in mapped, tabular or graphical formats.
- 1994 USA Confidential Company - Development of a MapInfo database system to determine international investment opportunities at global, country and regional levels. Several critical value databases, covering resource, manufacturing, infrastructure, politics, social, risk and investment attributed were developed. Data quality importance and critical value weighting labels were attached to all data to screen investment opportunities at the country and regional level.
- 1994 AUSTRALIA Australian Newsprint Mills Ltd - Development of a Forest and Management Information System using MapInfo GIS to assist management of ANM's freehold and joint venture plantation in NSW and Victoria. Project also requires these plantations to be linked to ANM's existing 170,000 ARTLIS (logging planning) GIS system developed by Margules Pöyry Pty Ltd in 1992/93.
- 1994 NEW ZEALAND Selwyn Plantation Board Ltd
Pilot GIS and Forest Information System development in the Canterbury Plains region. 1,000 ha (pilot), 13,500 ha (full development). System will integrate the forest compartment maps with SPB's Forest Master database to provide a mapping and planning system for establishment, maintenance and harvesting. Project involves digital capture from a range of sources including air photos, existing maps of various scales and existing digital data.
- 1993 AUSTRALIA Braidwood Forestry (smallholders) - Pre-logging inventory of 130 ha of radiata pine for utilisation. Inventory undertaken using MARVL inventory techniques and variable radius plots.
- 1993 AUSTRALIA Australian Newsprint Mills Ltd - Strategic analysis of all wood supply options, in terms of volume, products, economics and marketing for the period 1993 to 2013 in the medium term and provide indications of sustainability. Project involves linking ArcInfo GIS data at the coupe level for softwood and hardwood plantations as well as native forests (old growth and regeneration) with a Forest Orientated Linear Programming Interpreter (FOLPI) to satisfy certain constraints. Several wood supply and forest management options developed with wood and cash flow profiles for the short, medium and long term.
- 1993 AUSTRALIA ANM Forest Management, Tasmania - Determination of growing costs (royalty) for pulp only radiata pine and eucalypt plantations as part of a strategic analysis into operation in Tasmania.
- 1993 AUSTRALIA ANM Forest Management, Tasmania - Assessment of economic discount rates used for forest valuation and financial analysis in Australasia.
- 1993 AUSTRALIA Australian Newsprint Mills Ltd - Data processing of height and diameter data for 3,000 irrigation clonal trial trees, linking data with GIS MapInfo representation of the trial.

- 1993 AUSTRALIA Rural and Agricultural Management - Pre-logging inventory of 750 ha Pinus radiata forest using MARVL inventory procedures. Appraisal for export and domestic log sales.
- 1993 NEW ZEALAND Carter Holt Harvey - Assessment of Australian softwood supply and demand to 1997/98 and identification of unsecured wood volumes. Indication of wood cost sensitivity to increasing international interest in Australia's softwood forests.
- 1993 SOLOMON ISLANDS Valuation of 330,000 ha of tropical concessions in the Solomon Islands using the net present valuation approach. Involved on-site audit of company operations.
- 1993 AUSTRALIA State Forests of NSW - Preparing digital maps for the Environmental Impact Assessments of the Grafton and Murwillumbah forestry regions as part of Margules Groome Pöyry's EIS work for the Commission. This involved transferring digital data from the Commission's ArcInfo GIS, captured at the 1:125,000 scale, to MGP's MapInfo system and digital capture of creeks and roads from 1:10,000 compartment maps. These were combined and presented at 1:100,000. Information was used in raster and vector formats.
- 1993 AUSTRALIA Department of Conservation and Natural Resources - An assessment of the value-adding performance of the hardwood sawmills in the Otways and Midlands Forest Management Areas in Victoria for the purposes of log allocation and pricing decisions.
- 1993 AUSTRALIA Australian Newsprint Mills Ltd - Fibre supply study covering roundwood and sawmill residues and describing the uncommitted volumes available by age group and distance to the mill. The study will also provide information on Pacific Rim wood costs and price setting mechanisms.
- 1993 AUSTRALIA Australian Newsprint Mills Ltd - Semi-automated wood freshness trial using MapInfo GIS to test the relationship between wood freshness (time from cut to paper production) and paper quality (brightness and strength), as a preliminary to full automation of ANM's wood inventory system using Global Positioning Systems (GPS) and GIS. All aspects of this project, from organising digitising of about 200,000 ha of forest, GIS development and training.
- 1993 AUSTRALIA CSR Softwoods - Comparative analysis of CSR Softwood's landed wood cost relative to six other Australian sawmills looking at royalty, harvest, loading, haulage, additional costs, log measuring systems, sawn recovery and value recovery in 5 cm log volume assortments. Information used for royalty negotiations.
- 1993 AUSTRALIA J. Notaras & Sons - Development of sawmill cost of production model for weekly assessment production costs relative to sawn value.
- 1993 AUSTRALIA Australian Newsprint Mills Ltd - Inventory design, data processing and statistical analysis for year 1 inventory of ANM's clonal trial and effluent reuse forest. Re-measurement system established with advice on appropriate sample numbers relative to clonal variation.
- 1992 AUSTRALIA J. Notaras & Sons - Preparation of 10 year wood supply tenders, covering data interpretation, pricing, volume requirements by species and log size, residual costing model development and tender documentation.

- 1992 AUSTRALIA CSR Softwoods - Softwood sawlog stumpage and royalty review of East Coast Australian states, New Zealand, Fiji, Chile and West Coast USA to provide information for major tender negotiations.
- 1992 AUSTRALIA State Forests of NSW and the Australian National University - The strength properties (modulus of rupture and modulus of elasticity) of regrowth Eucalyptus sieberi in the green and dry state. Report compilation and analysis using research data collected by the SFNSW and ANU (Forestry).
- 1992 AUSTRALIA Australian Newsprint Mills Ltd - A comparison of three forest valuation methodologies: (1) compounding historic cost, (2) discounting future costs and returns, and (3) liquidation valuation and when to change from compounding costs to discounting future cash flows.
- 1992 AUSTRALIA Rural and Agricultural Management - Valuation of wood loss due to road clearing operation in softwood plantation for compensation purposes.
- 1992 AUSTRALIA Penrose Pine Products - Preparation of 10 year softwood sawlog and roundwood tender covering pricing, volumes and documentation.
- 1992 AUSTRALIA Confidential (tropical harvesting and afforestation) - Senior management recruitment, locating prospective professionals in general management, harvesting, marketing for Solomon Islands operations.
- 1992 AUSTRALIA Australian Newsprint Mills Ltd - Analysis of post-thinning pruning program, determining financial returns over a range of sawlog / peeler log price differentials.
- 1992 AUSTRALIA State Forests of NSW - Long term yields and management options for the forests in the Eden Native Forest Management Area.
- 1992 AUSTRALIA Australian Newsprint Mills Ltd - Sampling options for Pinus radiata irrigation and clonal trials.
- 1992 AUSTRALIA Axiom Forest Resources Ltd and Turnbull & Partners - Computer model developing cash flow and operational data for valuation of 300,000 ha of Solomon Islands Forest Concessions operation.
- 1992 AUSTRALIA Australian Newsprint Mills Ltd - Study of softwood pulpwood stumpages around the Pacific Rim countries.
- 1991 AUSTRALIA Perpetual Trustees - 300 ha Pinus radiata inventory for valuation purposes.
- 1991 AUSTRALIA Australian Newsprint Mills Ltd - Projections of yield and returns to ANM owned and managed forests under a broad range of silvicultural, wood procurement and industrial capacity scenarios.
- 1991 AUSTRALIA Poolmans Agricultural Consultants - Forest valuation for fire insurance purposes.
- 1991 AUSTRALIA ACT Government - Department of Urban Services - Review of the operations of ACT Forests following valuation.

1991 AUSTRALIA	Australian Newsprint Mills Ltd - The effect of various pulpwood procurement levels on sawlog supply and gross revenue to the Department of Conservation and Environment, Victoria.
1991 SOLOMON ISLANDS	Kolombangara Forest Products (KFPL) Ltd - Forest inventory of 8,500 ha of mixed hardwood plantations to determine long term yields for early start-up study looking at processing options - from chipping to sawmilling. Project undertaken in conjunction with Groome Pöyry of NZ.
1991 AUSTRALIA	Perpetual Trustees (WA) for Rural and Agricultural Management (RAM) Valuation of forestry Bathurst-Oberon portfolio for sale purposes.
1991 AUSTRALIA	Forest Science Consultancy - Marketing of wood from land-based effluent reuse projects.
1991 AUSTRALIA	CSR Softwoods, Caboolture, Queensland - Project Manager - Digital mapping development, installation and training. R. Meynink and C. Borough.
1991 AUSTRALIA	Australian Forest Development Institute - Privately owned Pinus radiata assessment / inventory / Geographic Information System in the Oberon : Bathurst : Orange regions of NSW. All aspects of inventory from Forfront field crew training to data processing. 10,000 ha. R. Meynink, C. Borough.
1991 AUSTRALIA	ACT Forests (ACT Government) - Forest Estate Valuation - Computer modelling.
1991 AUSTRALIA	Australian Newsprint Mills Ltd - Economic Model Development.
1991 AUSTRALIA	Resource Assessment Commission - Cost-Benefit Forest Model development - NSW South East Forests.
1990 AUSTRALIA	NSW Water Board - Project Manager - Land-based effluent reuse study, Gerringong, NSW.
1990 FIJI	Fiji Pine Commission - Pinus caribaea inventory and forest valuation, 42,000 ha.
1990 AUSTRALIA	Holbrook Shire Council - Shire Afforestation Study - Resource component.
1990 AUSTRALIA	Harris-Daishowa (Australia) Pty Ltd - Financial evaluation of SE NSW afforestation report.
1990 AUSTRALIA	Australian Newsprint Mills Ltd - The effect of stocking (stems per hectare) on the financial return of 'pulp driven' Pinus radiata plantation forestry.
1990 AUSTRALIA	Australian Newsprint Mills Ltd - Pulpwood Royalty Arbitration Project.
1990 AUSTRALIA	Australian Newsprint Mills Ltd - The economic implications of failing to first thin Pinus radiata plantations.
1990 AUSTRALIA	Margules & Partners and Commonwealth Department of Primary Industries & Energy - Economic evaluation of proposed recovery mill - NSW South Coast.
1990 AUSTRALIA	Judd-Shuter Property Services Pty Ltd - Capital gains tax valuation of 1,000 ha Pinus radiata plantation - NSW.

- 1990 AUSTRALIA Road Transport Association of NSW - Determination of long distance trip payments from and to all major centres in NSW.
- 1990 AUSTRALIA Fortech Pty Ltd - Yield and cash flow projections from the Abbeygate Afforestation Pinus radiata plantations - Tumut, NSW.
- 1990 AUSTRALIA Road Transport Association of NSW, Northern Division Office - Computer programming and training - Conference Management software.
- 1990 AUSTRALIA Australian Rural Management - List and 3P sampling inventory of Australian Rural Management Pinus radiata plantations in the Bathurst-Oberon region of NSW.
- 1990 AUSTRALIA Australian Newsprint Mills Ltd - Determination of pulpwood royalty rates for arbitration.
- 1990 AUSTRALIA Road Transport Association of NSW - Paper presentation to Waste Disposal Contractors Association. Jupiters Casino 'Entrepreneurial Role of the Waste Management Authority. Should any or all of its functions be transferred to the private sector.'
- 1990 AUSTRALIA Australian National University - Forestry Department - Inventory Field Studies Training to students entering Year 3. Point-Poisson (3P) techniques, Eden, NSW.
- 1990 AUSTRALIA CSR Softwoods - 10,000 ha Pinus radiata inventory for volume of healthy and Sirex noctilio affected stems by 5 cm assortments. Intensive field crew training of CSR inventory crews, inventory design, data processing, database development and reporting.
- 1990 AUSTRALIA CSIRO and Commonwealth Department of Primary Industries & Energy - Smallwood residual study on logging coupes in the South East of NSW. Field crew training, field sampling, design, database development and data processing.
- 1990 AUSTRALIA Margules & Partners and Commonwealth Department of Primary Industries & Energy - Subconsultant - Eden, NSW Flitch Mill Study, field sampling design and training.
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Determination of effective cost benefit for ANM involvement in Southern Tree Breeders Association (STBA).
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Development of Pinus radiata growth model, B.L. Turner; software, R.W. Meynink.
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Computer model development and subsequent determination of returns from forestry investment given improved silvicultural and genetic stock under short pulp only rotations. D. Frankcombe, J. Quick & R.W. Meynink (34 pp. In 300 p. report).
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Development of ANM / Farmer Joint Venture agreement software.
- 1988 AUSTRALIA Road Transport Association of NSW - Truck accident statistics analysis (visual presentation).

- 1988 AUSTRALIA Road Transport Association of NSW - Submission to the Industries' Assistance Commission (Australian Government) on the pricing policies of the MWDA. R.W. Meynink, K.W. Groves & C. Hamilton (12 pp).
- 1988 AUSTRALIA Road Transport Association of NSW - Development of computer software to determine road haulage costs.
- 1988 AUSTRALIA Road Transport Association of NSW - Strategic analysis of the proposed MWDA waste handling charges. K.W. Groves, I. Whyte & R.W. Meynink (14 pp).
- 1988 AUSTRALIA Road Transport Association of NSW - Recommendations for a truck time slotting system for container movement from Sydney container terminals to the road haulage agents (20 pp).
- 1988 AUSTRALIA Australian Newsprint Mills Ltd, Boyer - Development of computer based 6-monthly production budgeting procedures software.
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Development of computerised software for National Safety Council 5 Star Accident Prevention Program.
- 1988 AUSTRALIA Australian Newsprint Mills Ltd - Numerous analyses of harvesting and road haulage options.
- 1988 AUSTRALIA Ryam Pty Ltd - Logging Contractors - Logging and rate setting software systems development. Daily log deliveries database software development. Road transport rate setting.
- 1987 AUSTRALIA NSW Forest Products Association - Computer model for forest harvesting and road transport rate determinations for NSW hardwood forestry operations.

CONFERENCE PAPERS, PUBLICATIONS AND REPORTS
--

- Carbon opportunities in Australia. DANA Woodchip Conference, August, 2013. Melbourne
- Tree based carbon offsets and their markets. DANA Woodchip Conference, November, 2010. Melbourne
- “Kyoto and Post-Kyoto Forest Carbon Protocols and Investment Opportunities” – International Pulpwood and Woodchip Conference October 2008, Singapore.
- Carbon sequestration presentation. SEQ Water, Wivenhoe Dam Information Centre. August 9th, 2007.
- Australian and New Zealand Institute of Foresters Conference “Carbon sequestration – an industry case study”. Coffs Harbour, June, 2007.
- Australian Institute of Energy Conference Paper “Carbon sequestration – an industry case study”. Melbourne, November, 2006.
- “IT in forestry operations – focus on ARTLIS” – Lecture - Australian National University, Canberra, September 2005.
- Attended International Pulpwood and Woodchip Conference – Uruguay, April 2005.
- “Plantation hardwood fibre markets”. Outlook 2003 Conference paper.
- CHINA – “China’s Forest Industries – Opportunities and Challenges – Forest Resources”. Jaakko Pöyry Multi-client report, Joint Principle Author and Project Director. – Published August, 2001.
- “Marketing Solid Wood Products from Eucalypt Plantations”. IUFRO Conference, Tasmania, 2000.
- “Sustainable Forestry Management - Plantations”. World Bank - Sustainable Forestry Management, Beijing, December 1999.
- “Outsourcing intellectual property to reduce costs: Integrated woodflow planning from multiple forests to multiple processors”. Contracting in Plantation and Production Forestry, Millennium Hotel, Sydney, 30 September 1998.
- ‘Wood Products in Asia-Pacific - Opportunity or Oversupply?’, Australian and New Zealand Institute of Foresters Conference (ANZIF), Canberra, Australia, April 1997.
- Application of RADAR satellite remote sensing to contour mapping of tropical forests using a 1:20,000 10 m contour map produced for a cloud covered region in PNG as an example - GIS Seminar, ODA, Palangkaraya, Central Kalimantan, Indonesia, March 1997.
- Outlook for Softwood Sawntimber and Panel Products to McIntosh Industry Seminar, Sydney, November 1996.
- Plantation Benchmarking Paper presented to the Australian Forest Growers Biennial Conference, Mount Gambier, South Australia, September 1996. Paper also published in AFG Magazine Spring 1996.
- Automatic Real-Time Logstack Inventory System (ARTLIS), Harvesting and Product Quality Inaugural Meeting IUFRO, p. 3.07-01, Rotorua, New Zealand, 12 June 1993.
- The Application of Modern Sampling and Mapping Techniques to the Inventory of Forests. AFDI Biennial Conference - Perth, WA, October 1990.
- Submission to the Resources Assessment Commission, ‘Precision of Forest Inventories’, April 1990.
- NSW Loggers Association Presentation - April 1990, ‘Logging Rates - The Way Forward’ at the opening of the NSW Loggers Association, Wauchope, NSW.
- International Forestry Conference for the Australian Bicentenary Paper - April 1988, ‘Equipment Replacement Investment and Cost Analysis - ERICA’, Albury, NSW.
- ‘Inventory Techniques to tackle Stands of Pine’, Australian Forest Grower, vol. 11, No. 2, 1988.
- ‘Financial Analysis of Logging Machinery’, Australian Forest Industries Journal, Logger Magazine, October/November 1988.
- Australian National University - Forestry Department, Forestry Planning and Management Course, co-presenter, November 1987.
